

Changing Bulk Allocation Interface Between Simple And Advanced

This section will detail how to change between the Simple and Advanced Interfaces available for **Consignment Bulk Allocation**. By default the **Advanced Interface** is enabled. By enabling the setting the **Simple Interface** will become active.

To change between the two interfaces:

1. Click on "Search For Anything" at the top of the screen and type "Organisation Settings" and click on the result that appears
2. Navigate to the **Features & Options** tab

Edit Organisation Settings

Organisation Address Email Transport Invoice **Features & Options** Mobile App Reveal Fields
